JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

FOREIGN AND INSULAR.

BARBADOS.

Smallpox present.

BARBADOS, WEST INDIES, *July 29, 1902.*

SIR: I have to inform the Department that smallpox has again made its appearance in this island, there being now 15 cases strictly isolated at the quarantine station, located on Pelican Island, separate from the mainland. Should the disease become epidemic I will at once cable the Department. The prevailing opinion among the physicians is that the disease is under control and will not become epidemic. No deaths have been reported by the board of health.

Respectfully,

S. A. MACALLISTER,
United States Consul.

The ASSISTANT SECRETARY OF STATE.

BRAZIL.

Reports from Bahia.

BAHIA, BRAZIL, *July 14, 1902.*
